TIMBERLAKE REMEMBERS

A few in our community have been lost to us in the last months. These souls were our neighbors, friends, past Board members, volunteers – fathers, mothers, husbands and wives. Some helped build, construct, cultivate, organize – others were present to support and encourage. They all in some way left a mark in Timberlake and we are committed to their memory.

BOARD OF DIRECTORS' REPORT

Board Meetings were held in May (after the Annual Meeting), June, July, August, September, October, February, March and April. In addition to all of the projects reported elsewhere in this report, the following tasks were achieved by your Board:

1. Continued development of storing official documents on Google Docs so that Board Members can review more easily.
2. Repeated Law Enforcement Forum for landowners. McKinley County Sheriff's Department attended this year. That meeting inspired a more formal Neighborhood Watch program, *See Something, Say Something*.
3. Forest Guild grant for removing landowners in a fire brush and tree removal was a success. McKinley County landowners who participated were very happy and would repeat using the grant if available. We are in contact with the Forest Guild's efforts in getting another grant and will keep the TRLA community informed.
4. Sold the TRLA Board owned lot on Culebra to new landowner through public sale. The lot on Cottonwood Drive is still for sale.
5. Worked with Box S landowner and Indian housing developer moving dirt from Box S property to Indian housing development new Lewis Trading Post on Highway 53. Developer was using large dump trucks that were using Timberlake Road to move the dirt. The Board made efforts to slow down the trucks and have developer water down Timberlake Road. Hauling finally ended around the first of September.
6. Purchased set of walkie talkies to be used during snow plowing, coordinate roadwork, emergency communications, etc.
7. Reversed a false lien against TRLA put in place by Clawson Excavating in Utah for trenching work done on the upper part of Ramah Lake. Timberlake did not own the portion trenched or requested any work to be done on any area of the lake.

Areas under Board Investigation:

1. Road maintenance is always the major concern.
2. Continued maintenance/improvement of Common areas, Ranch House and Bath House.
3. Continued review of equipment and capital investments for the next two to ten (10) years (ie: Ranch House metal roof in eight years and construction of equipment storage facility for the grader, tractors, Ford 550, brush hog, snow plow attachments, etc. A replacement for the diesel storage tank is also being considered.

Exploratory Committee to Re-Establish Ramah Lake

The research into the water rights for Ramah Lake has shown that the Ramah Land and Irrigation Company has rights to use the water in Ramah Reservoir for irrigation. By Court order, adjudicated in 1985, they may divert up to 13,500 acre/feet of water per year for irrigation. An acre/foot is the amount of water needed to cover one acre of land with one foot of water. Since Ramah Lake is about 100 acres at best, the Ramah Land and Irrigation Company could divert the equivalent of a lake with the surface area of Ramah Lake that is 10 feet deep - 13.5 times every year!

It looks like there is nothing we can do on our own to recreate the lake. I spoke with Chris at the New Mexico Office of the State Engineer who confirmed that any water laying anywhere in that lake bed could be diverted by Ramah Land and Irrigation Company for irrigation.

It was worth a try but I do not see any point going further with the lake project - unless we are approached by Ramah Land and Irrigation Company to do something cooperatively to re-establish a viable, permanent lake again.

Communications Report

Website:

TRLA'S Webmaster, Wayne Ramm, has done a fantastic job building the website. It is our hope that the website provides information of important dates and announcements, upcoming events, volunteer activities, minutes of Board meetings, update on happenings on the ranch, info for Zuni transfer station and Gallup recycling, emergency numbers, tips/info on subjects that affect landowners, and current concerns. Check out the website at <http://.trnews.info/index.html>.

Timberlake Times Newsletter:

The Timberlake Times Newsletter was published in July 2015, November 2015 and March 2016. Nancy Ramm is the newsletter editor, along with lots of valuable assistance from the Timberlake Neighborhood Volunteers who assist in preparing the remaining hard copies. Printed newsletter numbers are down to about 130, versus 160 last year and 220 the year before. Distributing the newsletter electronically, via email and the website, saves landowners considerable money, with the reduction of printing costs, labels and postage costs, as well as the manual labor required to print, fold and assemble the hard copies. If you are currently receiving a hard copy, but would like to receive a color version via email, please contact Nancy Ramm at nancyramm@wildblue.net.

Timberlake and Rosie Alerts:

When an important situation impacts Timberlake residents, (lost and found pets, bear/mountain lion alerts, thefts or suspicious behavior, etc.) an electronic alert is sent to landowners in the Timberlake area. Landowners who wish to be included in this alert system should contact Linda Pedersen or Steve Wills.

Timberlake Ranch Facebook Page:

You can now follow us on Facebook @ Timberlake Ranch, a place to meet your neighbors, leave feedback share pictures, stories or whatnot!?!?!?

DEMOGRAPHICS OF TIMBERLAKE RANCH AND LANDOWNERS

Timberlake Ranch covers approximately 7000 acres in both Cibola and McKinley County. It is nestled in a valley surrounded by the Cibola National Forest (342,000 acres). The roads report is as follows:

- One inch minus base course rock as put on the following roads;
- Bluebird from Timberlake rd. to Blackbear.
- Blackbear road from Pinion to past Rosalie's property.
- Pinion from Timberlake rd. to Blackbear.
- Quail from Pinion to Blackbear.
- Sagebrush from Timberlake rd. to end of road.
- Woodland from Copperweed clear around back to that intersection.
- Lakeview from Timberlake to North gate to lake.
- Wolf from Timberlake to Lakeview.
- Sunrise at Timberlake rd. was re-worked to clean bar ditches and then gravel at that area.
- (Storm damage)
- Culverts were placed on upper Sagebrush and Blackbear right off Timberlake rd.
- Culverts were repaired on Blackbear and Pinion.
- The holes were repaired on culverts at Wolf and at the Zuni wash crossing.
- A larger culvert (donated) was put on Quickdraw at 153.
- The portion of 153 from Quickdraw to top of hill was reworked to alleviate flooding there; the barditch was reworked to drain water away at that location also.

Gravel will be done on Sunflower, Hilltop, Sunrise and Foxtail at start of new budget in July. Steve Wills and I will determine what roads will get work after that.

As of April 30, 2016:

- TRLA sold one property which had been obtained through foreclosure in 2014, effectively reimbursing TRLA for all past association dues and legal expenses. These funds were returned to TRLA's budget.

- Liens placed this year, due to delinquent association dues - 8, compared to 15 last year.

- Liens released this year - 7

Legal Report

TRLA retains the law firm of Cassutt, Hays & Friedman, P.A. in Santa Fe, New Mexico.

Legal expenses cover foreclosure proceedings and legal opinions on issues, such as covenant violations, hunting and livestock concerns, foreclosed property sales, the Homeowner Association Act, and the Guest Membership Agreement.

-TRLA has foreclosed on four lots this year. In NM, there is a 9-month redemption statute, which is a required waiting period before resale, so these lots are now owned by TRLA, but cannot be resold until after the 9-month period.

And finally the Board of Directors would like to thank the many volunteers who make this such a great place to live and play.
