

The first segment of the new Timberlake Trail is open for hiking between the Yucca and Cedar trailheads. The completed portion is 1/2 mile with a side trail to a scenic overlook. It is an easy walk through the forest on a well-graded path. Once complete, the entire trail system may potentially be up to 8 miles. The trail is entirely within the HOA Commons and is exclusively for landowners and their guests. Our volunteer trail crew is actively working to extend the trail southbound.
